Recommendations

Recommendations

Actions to reduce attrition, ranked by evidence strength

Highest Risk Segment 1
Sales Representatives working overtime **66.67%**

Highest Risk Segment 2
Low income employees on OT (64) **56.14%**

Overtime

Company-wide, not just sales, lab techs on OT hit 50% turnover vs 15.7% off it.

- Cap overtime hours per rep
- Review workload and comp
- Rotate account assignments

Age Group

Under-25s leave more than twice as often, often driven by isolation.

- Pair new hires with mentors
- Publish a clear promotion timeline
- Hire in same-age intake groups

Job Involvement

Low involvement predicts turnover more strongly than low satisfaction.

- Clarify how work gets assigned
- Give end-to-end project ownership
- Flag managers with repeated 1-scores for check-ins

Work-life balance

Employees unhappy with WLB leave at nearly double the rate.

- Audit workload distribution
- Offer flexible or hybrid options
- Track WLB scores quarterly
